## Description

Use to:

Create 100 files .txt named form 22 to 121

Modify files name to represent char from digit string

How to use:

```
./flooding_script.sh create
```

→ To create 100 files

```
./flooding_script.sh modify
```

→ To modify name of all created file to represent char

Important things:

If represent char can't be named for file → it's will be named "A..A.txt"
